Profile

Sinèad is a confident, enthusiastic, and organised individual with over 10 years' experience within the field of special educational needs for a local authority, and Early Years settings, both private and voluntarily.

Sinèad has been working as a case management assistant, facilitating the seamless delivery of therapy and rehabilitation for a catastrophic caseload since March 2022. During this time Sinèad has developed a greater understanding of the litigation process. She is particularly passionate about brain injury rehabilitation and co-ordinating long-term support needs. In this role, Sinèad has experience working with both adults and young people.

Sinèad's previous role included working as an Area SENCO/Early Support Officer for a local authority within Early Years settings and primary schools. Within this role Sinèad held a caseload of young people and was responsible for ensuring their individual educational needs were met by the placement. The role entailed Sinèad liaising with numerous professionals and providing invaluable feedback to stakeholders.

Sinèad has vast experience working alongside families of those with additional educational needs, supporting them sometimes prior to an initial diagnosis, through to them being settled into an appropriate educational placement.
