Profile

Rosie is a caring, dedicated case manager who strives to ensure her clients receive tailored, timely and high quality rehabilitation to address their needs. She has over 20 years' experience managing complex cases and multi-disciplinary neuro-rehab teams.

Rosie is a BABICM Advanced Practitioner, an accreditation she received in 2019 as recognition of her experience and expertise supporting clients with acquired brain injury. She quickly develops trusting relationships with clients, their parents and family. She has been brought in on several cases where previous case management has been unsuccessful. Her calm assured approach means that solicitors and clients quickly build up confidence and rehabilitation progresses in a timely manner.

Rosie takes care to form high quality, bespoke neuro-rehabilitation teams that match the client's needs. She has an excellent network of clinicians. In order to achieve the 'hands-on' style of case management that Rosie prides herself on, she has a maximum caseload number of 8 clients to ensure she has the capacity to fully meet the needs of all of her clients. Communication is a key component in rehabilitation. Rosie gives confident and articulate feedback, ensuring that all parties are all kept regularly informed through Progress Reports, meeting minutes and email updates.

Testimonial

"I have worked with Rosie as a case manager on significant brain injury case. Her knowledge of the subject matter and her case management has been exemplary. She makes recommendations that are sensible and tailored to the individual client (rather than formulaic). The recommendations move the rehab forward with goal focused outcomes which not only helps the client but also helps the parties in terms of the legal process. I would have no hesitation (and indeed would actively seek) to use her again for my catastrophic injury cases."
